

Dear Rod —

Thank you for saving my sister's life. When I asked you years ago to help sign my sister up for the affordable Health Care Act I didn't know for sure if my sister had cancer. (She did). I knew something was wrong and I knew she needed help! (You were that help, that blessing, the means to an end.) After a year of chemo and radiation she is fine. I know the series of events that led up to you coming to 2nd Chance, to you sitting down at my dining room table changed the course of her life and mine and so many others. (You became what I asked God for.) So with that I Thank you! Not only for your time and saying yes to someone in need But to being the type of person you are!

With Much Love & Gratitude!
Angie
